ABOUT ME

I am a certified CAD (Computer Aided Design) designer, an Autodesk Certified Professional in AutoCAD for Design and Drafting and a full-time student at the European University Brčko district. I am currently studying civil engineering (4th year) and architecture (3rd year). I engage in designing 2D and 3D projects (which includes their visualization) in programs such as AutoCAD, 3ds Max and Revit.

I have successfully completed a course for two-dimensional drawing - AutoCAD 2D, a course for 3D modeling in AutoCAD, a course for 3ds Max modeling, a course for 3ds Max visualization and a course for Autodesk Revit. I like to spend my free time practicing designing exteriors and interiors of family homes and residences according to my own ideas and wishes.
